*Chalk, un unico formato
25x76 cm in 5 colori neutri,
risponde alle tendenze
contemporanee che vedono
l'estetica del cemento
protagonista non solo come
materiale industriale, ma
anche come rivestimento per
ambienti pubblici e privati.
Il decoro Origami, le strutture
3D Fiber e Brick insieme ai
mosaici rendono la collezione
ideale a differenti stili.*

Chalk, just one size of
25x76 cm in 5 neutral
colours, responds to the
contemporary trend for use
of the concrete-look not only
as an industrial material but
also as a surface covering for
public and private locations.
The Origami decor tile, the
Fiber and Brick 3D structures
and the mosaics make this
collection ideal for a variety
of styles.

Chalk, un seul format de
25x76 cm en 5 couleurs
neutres, suit les tendances
contemporaines qui
considèrent l'esthétique du
béton non seulement comme
protagoniste du secteur
industriel, mais aussi comme
revêtement de pièces dans
les secteurs public et privé.
Le décor Origami, les
structures en 3D Fiber et
Brick, avec les mosaïques,
rendent cette collection
parfaitement adaptée à
différents styles.

Chalk, ein einzigartiges
Format mit 25x76 cm in
5 neutralen Farben, greift
den zeitgenössischen
Trend auf, der Beton nicht
nur als Industriebaustoff
sieht, sondern auch als
Verkleidungsmaterial für
öffentliche und private
Räume in den Mittelpunkt
stellt.
Mit dem Dekor Origami, den
3D-Reliefs Fiber und Brick
und den Mosaiken wird die
Kollektion unterschiedlichen
Stilen gerecht.

Chalk, un único formato de
25x76 cm en cinco colores
neutros, responde a las
tendencias contemporáneas
que ven protagonista la
estética del cemento, no solo
como material industrial sino
también como revestimiento
para ámbitos públicos y
privados.
La decoración Origami, las
estructuras tridimensionales
Fiber y Brick, junto con los
mosaicos, convierten la
colección en idónea para
diferentes estilos.

Коллекция Chalk с единым
форматом
25x76 см в 5 нейтральных
цветах соответствует
современным тенденциям,
выбирающим эстетику
цемента не только в
качестве промышленного
материала, но и для
облицовки общественных
и жилых интерьеров.
Декор Origami, объемные
фактуры Fiber и Brick,
а также мозаика,
делают эту коллекцию
наиболее подходящей для
разнообразных стилей
оформления.

Un luogo commerciale progettato tra pattern geometrici, tridimensionalità e un mix and match di materiali. L'effetto cemento alle pareti si sposa con il grande formato 25x150 cm di Treverktrend Rovere Scuro.

A business premises designed with geometric patterns, three-dimensional structures and a mix and match of materials. The concrete look on the walls combines attractively with the large 25x150 cm slabs of Treverktrend Rovere Scuro.

Un espace commercial projeté entre motifs géométriques, tridimensionnalité et une combinaison de matériaux. L'effet béton aux murs se marie avec le grand format 25x150 cm de Treverktrend Rovere Scuro.

Ein gewerblich genutzter Raum, der sich durch geometrische Muster, Dreidimensionalität und gelungene Materialkombinationen auszeichnet. Die Betonoptik der Wände vereint sich hier mit dem Großformat 25x150 cm von Treverktrend Rovere Scuro.

Торговый объект, созданный с применением геометрических мотивов, трехмерных элементов и удачной смеси материалов. Эффект под цемент на стенах сочетается с крупным форматом 25x150 см плитки Treverktrend Rovere Scuro.

Un lugar comercial proyectado entre patrones geométricos, tridimensionalidad y una mezcla bien combinada de materiales. El efecto cemento de las paredes casa perfectamente con el formato grande de 25x150 cm de Treverktrend Rovere Scuro.

(tech-info & plus)

(quality and environment)

Qualità per Marazzi significa qualità di prodotto, di processo e sostenibilità ambientale, attenzioni che hanno permesso all'azienda di certificare i propri sistemi e i propri prodotti.

La qualità ecologica dell'intero ciclo industriale parte dalle materie prime estratte da cave che operano nel rispetto delle direttive ambientali per la tutela dell'habitat.

Durante il processo di produzione Marazzi adotta sistemi di raccolta e riutilizzo degli scarti e delle acque di lavorazione, limitando così il consumo di risorse naturali.

Le emissioni in atmosfera di tutte le fasi vengono controllate con idonei sistemi di abbattimento, non sono presenti scarichi di acque industriali e, grazie al recupero del calore e all'autoproduzione di energia, i consumi energetici risultano ottimizzati.

Infine i rifiuti prodotti vengono raccolti e inviati al recupero presso aziende autorizzate. Marazzi, al fianco di ingegneri e architetti, progetta e realizza sistemi in ceramica innovativi in grado di migliorare la qualità della vita delle persone e il loro rapporto con l'ambiente che le circonda.

For Marazzi, quality means quality of product, process and environmental sustainability, priorities that have enabled the firm to certify its systems and products.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.

Atmospheric emissions from all phases are controlled by means of suitable scrubbing systems, no industrial effluents are discharged, and heat recovery and in-house energy generation optimise energy consumption. Last but not least, the waste produced is collected and sent for recovery by authorised firms. Marazzi works with engineers and architects on the design and realisation of innovative ceramic systems capable of improving people's quality of life and their relations with their surrounding environment.

Le mot « Qualité » pour Marazzi signifie qualité de produit, qualité de processus et durabilité environnementale, autant de caractéristiques qui ont permis à la société de certifier ses systèmes et ses produits.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.
